Voices: A Teacher's Guide is an arts-integrated curriculum designed to help any teacher integrate music into a study of the Civil Rights Movement by using the materials found in the publication *Voices: Reflections on An American Icon through Words and Song*. While the arts may be declining in your school in terms of the number of courses offered or the number of specialists available, **you as the classroom teacher can take simple steps to ensure that music is not absent from the lives of your students**. You need not have a musical background to implement these music-integrated lessons; any vocabulary you might need is provided for you. These lessons primarily focus on music listening and response exercises that can be done with no music equipment beyond the *Voices* CD and a CD player. Preview selections from the Teacher's Guide online at www.choralarts.org/workshops.html.
